

With today's increasing emphasis on health and safety, you can already be confident that Carrier Transicold's range of truck & trailer products provides you with superior temperature control under all conditions.

However the current business environment in refrigerated transport also demands ever-more precise and reliable tools for documenting the safety of products during transport and sharing this data with customers.

New to the DataCOLD range of temperature recorders, the DataCOLD 250 provides you with a cost-effective recorder based on the proven technology of the DataCOLD 500. Easy to commission and to install, it delivers simple and reliable performance tracking, combined with data analysis. DataCOLD 250 records and stores data for a minimum of 1 year.

**DataCOLD 250 is ideal choice for customers looking for a simple way to stay inside the law!**

DataCOLD 250 is available in 2 versions: T for outside installation on trailer, R for installation inside the cab.

► **Reliable performance**

- Recording of up to 2 temperatures
- Recording of 1 event such as door opening, defrost, refrigeration operation etc
- Memory that allows storage of minimum 1 year of safe data memory.

► **Remarkable ease of use**

- User-friendly menu makes operation extremely simple thanks to a 4-key keyboard
- Read-out is available in 8 languages that can be easily selected at any time
- Security protected clock with automatic winter/summer time adjustment.

► **Integrated printer**, with one touch operation, gives fast access for the driver to all graphical and numerical reports, delivery ticket etc.

► **Infra-red connection** provides fast data transfer to PC for data storage and analysis.

► **Innovative DataCOLD software package**, fully compatible with Windows™, provides unprecedented access to vital data and automatic generation of graphical and numerical reports.

**DataCOLD 250 recorders are tested and approved to the European EN12830 specification, meeting the objectives of directives 92/1/EU and 93/43/EU.**

250 T for outside trailer installation.

250 R for installation in-cab.
